INTEGRA: Multidisciplinary Mentorship programme to support the entrepreneurship of children in care and young care-leavers

The first transnational meeting for the INTEGRA project took place in Nicosia, Cyprus, in June 2018. This moment represented the kick-off of a project that proposes a new approach to support young people ageing-out of care-systems, easing their social, cultural and economic integration into the community through the establishment of support networks and tailored mentoring programs.

The national reports of 5 countries (Cyprus, Greece, Italy, Portugal and Spain) will be released soon, providing a better understanding about the obstacles and needs that children in these southern EU countries face during their transitioning process to adulthood.

Meet the dedicated and excited INTEGRA project team:
