

#INTEGRAeu Newsletter – January 2020

During the month of **January** we have continued with the **workshops for professionals** working with children and youth living in residential care and young care leavers. The **evaluation toolkit** from the **Mentoring and Integration Program** was presented and delivered to caregivers who attended the workshops. The **MIP** is meant to **support young people** on their path to **independence and autonomy**.

→ Check the **project partner** in your country for more **information** ←

Launch of the **P4C - Platform for Cooperation**

In the **beginning of 2020**, the project partners launched the **P4C** which is available in **Spanish, English, Portuguese, Greek and Italian**. The Platform enables professionals and entities to register in order to **publish news and services**, as well as **being part of a collaboration network** to help other entities, organizations and institutions **share their experiences and resources**.

Between **January and March 2020** we will continue to offer workshops and activities to professionals with the **goal of distributing the #INTEGRAeu tools and resources** to **support and guide** young people who are on their way to adulthood and **out of the protection system**.

For more information and updates, **check** the projects' website. We will continue to **share relevant information and news** in social networks with the **#INTEGRAeu**
