

#INTEGRAeu Newsletter – February 2020

During the month of February we continued to present the [P4C - Platform for Cooperation](#), between the collaborators of the project which will allow professionals and entities registered to **be able to view and share local resources and services available in their country.**

——>**Evaluations of the workshops’
participants**<——

We continued also with the workshops targeted to the professionals for the presentation and the follow-up of the toolkit in the [Mentoring and Integration Program \(MIP\)](#), created to support teenagers on their way to autonomy and independence. It was **very gratifying to listen to the feedback** from the participants, once they were more familiar with the material.

Below you will find **some impressions that we would like to share:**

“Our daily work is mainly focused in assisting Residential Care teenagers in a short-term basis, but with this set of tools, we have a little guide to teach them the importance of the community and give them some skills in order to improve their participation in the community.”

(Residential Center Educator).

“We can use this material as a complement for the mentorship and to review the work that we currently do in the center.”

(Residential Center Educator).

“The online evaluation tool allowed me to realize that some aspects of my mentorship needed more work and, on the contrary to what I thought about the difficulty level of the toolkit, the teenager was able to finish the evaluation without any type of difficulty.”

(Emergency Center Educator)

In March 2020, through CEPS Projectes Socials, partner of the INTEGRAeu project in Spain, the INTEGRA project will participate in the [European Mentoring Summit](#) which will take place in Barcelona and where we will share the #INTEGRAeu project between the audience.

You can find news and updates in <https://integra.uncrcpc.org/spain/> and we will keep sharing information in our social networks with the **#INTEGRAeu**.
